

# KUNAL PANDEY

FULL STACK DEVELOPER

---

Sec-28, Rohini, Delhi | +919818493379 | kunalpandey646@gmail.com | [GitHub](#) [LinkedIn](#)

---

Aspiring Full Stack Web Developer with hands-on experience. Proficient in developing responsive web applications. Strong understanding of front-end Development (HTML, CSS, JavaScript, React.js) and backend development (JavaScript, Node.js, Express.js, REST API) and Databases (SQL, PostgreSQL)

---

## WORK EXPERIENCE

### Full Stack Web Developer

Solar Secure Solutions, Remote

Internship • Aug 2024 – Oct 2024 (3 Months)

---

## EDUCATION

### Bachelor of Technology (Computer Science)

CGPA 8.68

HMR INSTITUTE OF TECHNOLOGY AND MANAGEMENT (Affiliated to GGSIPU)

2021 - Present

---

## TECHNICAL SKILLS

**Front-End Development-** HTML, CSS, JavaScript, jQuery, Bootstrap, React

**Back-end Development-** Node.js, Express.js, SQL, PostgreSQL, REST API, Git, GitHub

**Programming Languages-** C, C++

---

## PROJECTS

### Food Ordering E-Commerce Website

<https://github.com/pandeykunal57/Food-Ordering-Website.git>

#### Project Overview:

Developed a full-stack food ordering web application using Node.js, Express.js, MySQL, and EJS. The platform enables users to browse products, add items to the cart, and place orders. It includes features like session-based cart management, order tracking, checkout, and payment processing. MySQL is used for database interactions, handling users, products, and orders. The application ensures smooth navigation with dynamic rendering using EJS templates.

### Blogging Website

[https://github.com/pandeykunal57/Blogging\\_WEBSITE.git](https://github.com/pandeykunal57/Blogging_WEBSITE.git)

#### Project Overview:

The goal of this project is to create a Blog web application using Node.js, Express.js, and EJS. The application allows users to create, view, edit, and delete blog posts. While the current version does not persist posts between sessions (as no database is used), it focuses on providing a user-friendly interface with good styling and responsiveness.

---

## **CERTIFICATION**

### **J.P. Morgan Software Engineering Virtual Experience on Forage - July 2024**

- Set up a local dev environment by downloading the necessary files, tools and dependencies.
  - Fixed broken files in the repository to make web application output correctly.
  - Used JP Morgan chase's open-source library called perspective to generate a live graph that displays a data feed in a clear and visually appealing way for traders to monitor.
- 

## **INTRESTED ROLES**

- Full Stack Development
- Front-End Development
- Back-End Development
- Web Development
